

# YOU WOULDN'T HAVE YOUR CREW CARRYING BUCKETS TO A FIRE.

So introduce them to the new **Electric Valve Controller** from **Elkhart Brass**. Mount it to our innovative Unibody Valve and you'll be able to accurately monitor and adjust water flow and pressure. Built with an LED valve position indicator, a heavy-duty motor and a convenient preset feature, our new Electric Valve Controller ensures your guys are getting the water they need. It's time to go electric. Go to [unibodyvalve.com](http://unibodyvalve.com) or call us at 800-346-0250.
