ELKHART BRASS MFG. CO., INC.

A NEW ERA HAS ARRIVED.

Welcome to a new era of fire apparatus manufacturing – an era in which modern demands require the latest technology. Enter the Elkhart Brass Unibody Valve and Electronic Controller – a superior combination that lets you display flow and pressure just about anywhere on the truck. No longer does a valve limit your piping, your panel or your ability to meet customer demands. It's time to rethink the truck, rethink the valve and rethink your decision all together. It's time for Elkhart Brass.
