

# OK, WE'RE GOING TO MAKE THIS REAL SIMPLE FOR YOU.

**The new Unibody Valve from Elkhart Brass.**

Choose your valve and then pick any actuator. It's that easy. The single-body design makes configuration and installation a snap. With bi-directional flow and no o-rings, service is a piece of cake. And cross-compatibility makes switch-out pain free. So why complicate things, go with the most versatile valve available. Go to [elkhartbrass.com](http://elkhartbrass.com) or call Elkhart Brass at 800-346-0250 for the simple story.
