ELKHART BRASS

FALL 2007

It's The Elkhart Brass "Go Electric" Sweepstakes!*

One Grand Prize:

A trip for 2 to the FDIC Convention
in Indianapolis, IN

Register for the Elkhart Brass "Go Electric" Sweepstakes today and be eligible to win a trip to FDIC – and benefit from the firefighting industry's premier training event. This trip includes...

- Travel and lodging for 4 days and 3 nights in downtown Indianapolis
- FREE Registration for workshops and H.O.T. classes of your choice**, where fire industry leaders will teach you how to do your job more safely and effectively
- VIP access to FDIC programs and events
- A \$4,600 value

No other event delivers more serious training for serious firefighters!

4 Monthly Second Prize Drawings:

An EB-500 Digital Portable Flowmeter
Retail Value: \$2,040

This cutting-edge digital flowmeter is a powerful addition to your firefighting arsenal with features like low- and high-flow warnings, a flowtube-mounted paddlewheel flow sensor, hard-anodized finish, weather-tight case and rechargeable battery.

To enter, visit WinWithElkhart.com.

Be sure to use code EBM234 when you fill out our online entry form!

* No purchase necessary. Void where prohibited. See official rules at WinWithElkhart.com. Sweepstakes end 11:59 pm ET on December 31, 2007.

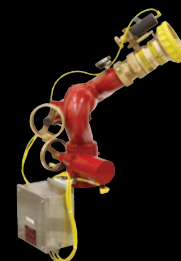

** Based on availability. If classes aren't available at 2008 FDIC, offer will be valid for 2009 FDIC.

HIGH PRESSURE MANIFOLD

Updated building codes across the country are requiring installations to meet higher pressure standards. Elkhart's new high pressure manifold operates at 400 psi, rather than the standard 175 psi. Can be ordered in straight (712) or 90° (713) body configurations.

- Single connection is 6" NPT
- 4-way connections are 3" NPT per opening
- Available optional snoots include spring check or clapper

NEW SHORT HANDLE UNIBODY VALVE ACUTUATOR

The Unibody line keeps growing! Now the Unibody manual valve has another actuator option. The new "short" direct handle actuator is just 5" long. Like the 9⁵/₁₆" version, it is available with a chrome cover or in a slow close option.

Like all Unibody actuators, the short direct handle actuator can be changed to different positions with a single bolt adjustment and is interchangeable with the other actuators by simply switching out 4 bolts.

THE LONGEST VALVE WARRANTY IN THE BUSINESS JUST GOT BETTER

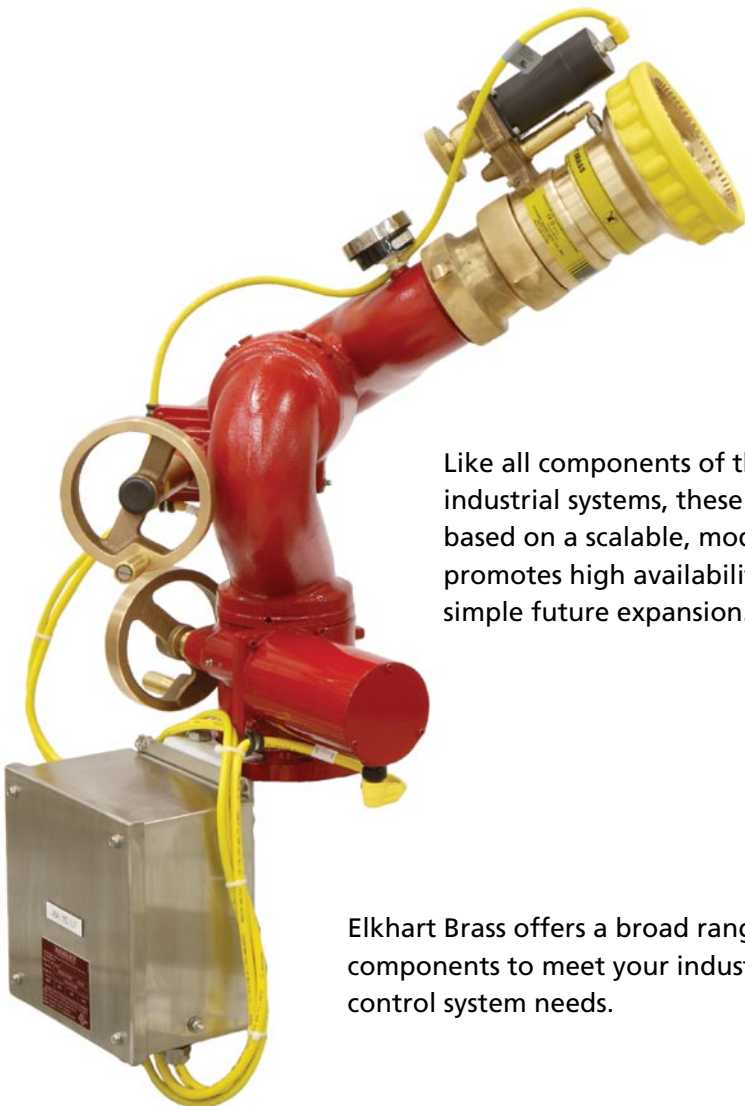

Elkhart Brass announces an expansion of our existing 10-year valve warranty. Our warranty now covers all valve-related electric components including the controller, the motor and the sensor(s). Our new expanded warranty is now the longest, most comprehensive warranty on electric waterflow components in the industry. Once again, Elkhart Brass leads the way.

Visit our website for warranty details.

INDUSTRIAL SYSTEMS

TAKE CONTROL

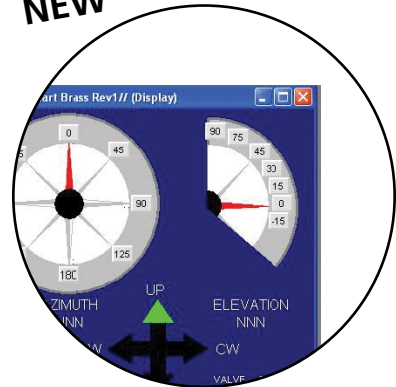

Controls are at the heart of every industrial remote control monitor system we build. When a customer has a need, we customize all aspects of our manufacturing process to fill that need. With our new options, you can also add functionality while reducing installation time and costs.

Like all components of the Elkhart Brass industrial systems, these new options are based on a scalable, modular approach that promotes high availability, reliability and simple future expansion.

Elkhart Brass offers a broad range of components to meet your industrial control system needs.

THE BEST GET BETTER

The most reliable fireground appliances in the business now offer all metal knob options. Metal lasts far longer, is more reliable and stronger than plastic.

Metal knobs are available on all Elkhart Brass Wyes, Siamese and LDH appliances with twist lock gate valves.
